

THE NAMES CHANGE BUT THE THREAT IS REAL TO YOUR FAMILY AND COMMUNITY

Tom DeWeese

**Tom DeWeese** is the foremost scholar on the Agenda 21 scheme to take away liberty and local autonomy. He will be speaking on this threat in York County on Saturday, January 20, 2018 at 7:15 PM, with a private dinner for sponsors at 6 PM. Make plans to go. Ask friends to come. Why not ask your elected officials who may know little or nothing about Agenda 21 and the threat, to attend and learn. This is not just a "United Nations" power grab. It is a prime example of how insidious the radical left is in making it appear that they are just taking care of the environment while they are actually taking property, taking our rights, and destroying our local autonomy. Understanding the implications of this issue and the ways it is implemented one jurisdiction at a time has never been more important.

*We are in search of individual Sponsors and organizations which are interested to co-sponsor.*
